

ANAND KUMAR

Software Engineer — Python | Django | AI/GenAI | Full-Stack

Vijay Nagar, Indore, Madhya Pradesh, India | +91 8962755855 | anand.renjre@gmail.com

PROFESSIONAL SUMMARY

Software Engineer with 5 years of experience designing and shipping production-grade Python/Django applications and AI-powered products built on OpenAI, LangChain, and RAG. Full-stack proficiency across Django REST Framework, React.js/Redux, and cloud deployment on AWS (EC2, S3, RDS) and Azure. Delivered fintech reward platforms, GenAI content and auto-grading systems, and cross-border social-impact applications used by NGOs and international clients. Strong track record of API design, code quality, and cross-functional Agile collaboration.

TECHNICAL SKILLS

Languages: Python, JavaScript

Backend Frameworks: Django, Django REST Framework, FastAPI, Celery

AI / GenAI: OpenAI API, LangChain, RAG, LLMs, Prompt Engineering, Cursor, Windsurf, Codex, Claude

Frontend: React.js, Redux, Material UI, Ant Design, Bootstrap, HTML5, CSS3, PWA

Databases: PostgreSQL, MySQL, SQLite

Cloud & DevOps: AWS (EC2, S3, RDS), Azure App Service, Docker, Beam, Git, GitHub, GitLab

Monitoring & Other: Grafana, Scrapy (Web Scraping), Blockchain Integration

PROFESSIONAL EXPERIENCE

Full Stack Developer | Devteam 365 Development India Pvt. Ltd.

Feb 2025 – Apr 2026

- Built and maintained production Python/Django applications, ensuring high performance, scalability, and reliability.
- Integrated OpenAI models into client-facing products to deliver intelligent, GenAI-powered features.
- Partnered with cross-functional teams to translate business requirements into shipped, production-ready features.
- Managed source control and collaborative development workflows using Git and GitHub.

Associate Software Engineer | Techno Exponent (T-Web Exponent Services Pvt. Ltd.)

Apr 2024 – Jan 2025

- Developed and maintained high-performance Python-based applications for production environments.
- Integrated advanced OpenAI models into applications to deliver AI-driven, intelligent solutions.
- Collaborated with cross-functional teams to design and implement features aligned to business needs.
- Used Git and GitHub to streamline code management and team collaboration.

Full Stack Developer | BridgeFix Technology, Indore

Sep 2021 – Mar 2024

- Led backend development with Python/Django and Django REST Framework, containerized with Docker; drove frontend delivery with JavaScript, React.js, and Redux.
- Designed and built the Tuzo reward-points platform for merchants and ISOs using Django, React.js, AWS EC2, and RDS.
- Resolved Jira-tracked issues, wrote unit tests to protect code quality, and built new APIs to extend platform capability.
- Optimized REST APIs and the Django admin dashboard; implemented Grafana dashboards backed by SQL for real-time data monitoring.
- Actively contributed to Agile ceremonies and peer code reviews while staying current on industry best practices.

KEY PROJECTS

Second Brain — *Python, Django, OpenAI, RAG, LangChain*

AI-powered personal knowledge platform using RAG and LLMs to organize, retrieve, and generate contextual responses from stored knowledge and documents.

AI Rank — *Python, Django, OpenAI, AWS, WordPress*

GenAI platform that generates SEO-friendly articles and auto-publishes them to WordPress, delivering affordable, automated content creation.

Web App Comprehensive Exam — *Django, Django REST Framework, OpenAI API*

Auto-grading platform enabling teachers to create exams, upload answer sheets, and use OpenAI for automated grading and personalized student feedback.

Tuzo — Reward Points Management System — *Django, React.js, AWS EC2, RDS, Celery*

Transaction-based rewards platform where merchants and ISOs earn and redeem points; built backend (Django) and frontend (React.js) with AWS deployment.

AFTS Digital — Cargo & Logistics Management — *Django, React.js, AWS EC2, RDS, Blockchain*

Secure cargo management system for cross-border defense-supply transport with a three-layer consignor/customs/consignee workflow, using blockchain for transparency and data security.

Inclusive Labor Monitoring & Golden Dreams — Issara Institute — *Django, DRF, Docker, React.js, Material UI, AWS EC2, RDS*

Multi-language (Burmese, Khmer, Nepali) web and mobile platforms for case management and worker rights education, supporting migrant workers and NGO staff across Asia.

EDUCATION

Master of Science in Computer Science — 70%

Barkatullah University, Bhopal, Madhya Pradesh | 2018

Bachelor of Science in Computer Science — 67%

Rani Durgawati University, Jabalpur, Madhya Pradesh | 2014
